
Daily Camp Routine

8:00AM - 9:00AM Students are dropped off and can play games until introductions begin.

9:00AM - 9:30AM At PinkyInc, we always begin the day together, with an introduction and routine start to the day. We are a close team, and want to encourage a positive environment. Teachers will lead "ice-breaker" games for students to get to know the PinkyInc camp crew and other students. Announcements are made, and then we break for activities together, as a team.

9:30AM - 10:30AM Students are grouped by age level, and assigned to a STEAM station. Teachers will model and guide students through a lesson regarding science, technology, engineering, arts, and mathematics. This is the perfect time for students to be inquisitive and curious about their topic.

10:30AM - 10:45AM Snacks are provided by PinkyInc, or brought in by students. During this time, we have guest speakers from the technology and engineering world come to talk about what they do for work. Students are encouraged to ask questions and chat with the speakers. On days without a speaker, teachers will show short videos connecting what we do at camp, to the real world.

10:45AM - 11:15AM Students choose an activity they are interested in learning more about, and spend some time with our teachers to engage in a project. Students are also placed into teams and given a task to complete together. They are to apply what they have learned, and collaborate to create working solutions.

10:45AM - 11:15AM Students choose an activity they are interested in learning more about, and spend some time with our teachers to engage in a project. Students are also placed into teams and given a task to complete together. They are to apply what they have learned, and collaborate to create working solutions.

11:15AM - 11:45AM Students are given time to continue working on the project they began during free choice time, or they have the opportunity to create something new. In the teams created, students participate in a fun and engaging competition.

11:45AM - 12:00PM At PinkyInc, we always end the day together. During our closure, we present the award winners throughout the day, and hand out prizes. Students are given something to think about while at home, and we will talk about this the following day. Students also collect their work and pack up.

12:00PM - 12:30PM While students wait for their rides, they can watch the video, interact with others, or continue working on their projects.

12:30PM - 1:45PM Students are grouped by age level, and assigned their second STEAM station. Teachers will model and guide students through a lesson regarding science, technology, engineering, arts, and mathematics. This is the perfect time for students to be inquisitive and curious about their topic.

1:45PM - 2:30PM Students are placed into teams and given a task to complete together. They are to apply what they have learned, and collaborate to create working solutions.

2:30PM - 3:15PM In the teams created, students participate in a fun and engaging competition.

3:15PM - 3:30PM Break time! Students will eat a snack provided by PinkyInc, or brought from home. Students are encouraged to interact with others and chat about their learning so far.

3:30PM - 4:00PM At the beginning of each day, students are presented with a daily challenge. They are to think about this throughout the day, and come up with an answer.
